## Twenty's Plenty for Away Tickets

Want to help bring ticket prices down? Then sign the FSF's *Twenty's Plenty for Away Tickets* petition. Your online signature will not only show your support for the campaign but automatically trigger an email to your club and the relevant league. *Twenty's Plenty* can only work if fans lobby their clubs and show that this is something their fan base supports. Do your bit and add your name to the petition.

*"I back the FSF's Twenty's Plenty for Away Tickets campaign and call upon football clubs at all levels of the game to recognise and reward the amazing contribution of away fans by getting together to agree an across the board price cap on away match tickets of £20 (£15 for concessions)."*

## Away Fans Feedback Project

*Twenty's Plenty* is just one part of our work to improve the matchday "experience" for away supporters.

From policing and stewarding to travel disruption, from changed dates and kick-off times to the worst seats in the ground, away fans are often at the sharp end.

By collating your views and experiences

in an academic fashion we can work with clubs and the authorities to solve some of your problems. The benefits will flow towards home fans, too.
